

# Up to 8Mb Business Broadband £5 per month - forever!

Unlike many broadband deals out there, this is not introductory gimmick before you're charged 'full price' for the remainder of your contract. We're £5 per month forever on LLU! Also our BT style broadband is only a **6 month contract!**

### WHAT IS LLU?

LLU (Local Loop Unbundled) is the alternative independent broadband network setup in 2008. It is cheaper than BT's broadband, with twice the upload speed, but is only available on half of BT's local exchanges at present.

\* Broadband speeds are up to 8Mb and depend solely on your proximity to the local BT exchange. For Resource's LLU broadband rates you must transfer your BT business line rental and calls over to us. Line rental will be charged at BT's standard business rate. ADSL2+ Modem/router required. Preprogrammed 4 port router available from Resource at £25. Service subject to a 6 or 12 month contract and £30 connection fee. All rates are ex VAT.

### UK HELP DESK

Our free broadband helpdesk is run by UK staff and we can immediately deal with any connectivity problems you may have.
